ABOUT US

Driving Business Forward with Trusted Transport Solutions.

Prakash Transport Corporation (PTC) is a trusted Indian logistics company with over five decades of experience. Founded in 1968, PTC has grown from a single-truck operation into a PAN-India transport network serving industries across the country.

We specialise in safe, timely, and accountable movement of industrial and commercial goods. Our operations are built on discipline, trained manpower, and technology-enabled systems that ensure every consignment is handled with care.

Today, PTC operates through 50+ branches across 22+ states and works with more than 1,000 clients from steel, cement, FMCG, agro, manufacturing, and infrastructure sectors.

WHAT DEFINES PTC

50+ years of proven logistics experience

Strong PAN-India branch network

Expertise in bulk, high-value, and project cargo

GPS-enabled fleet for real-time tracking

Customer-first and service-driven approach

OUR APPROACH

We believe logistics is not just movement of goods.

It is about responsibility, planning, and trust.

Every delivery reflects our commitment to quality service.

50+ Years Legacy

Delivering reliable logistics solutions since 1968.

PAN-India Presence

Operations across East, West, North, and South India.

Service Ahead of Sales.

OUR MISSION

To provide reliable, efficient, and cost-effective transport and logistics solutions that meet the unique needs of every customer.

We aim to build long-term partnerships through transparency, safe handling, and consistent on-time performance.

OUR VISION

To be a trusted nationwide logistics partner, recognised for service excellence, operational discipline, and customer satisfaction.

HOW WE DELIVER VALUE

Customer-Centric Operations

Every solution is designed around customer requirements and cargo sensitivity.

Process-Driven Execution

Standard operating procedures ensure consistency, safety, and efficiency.

Trained & Experienced Teams

Our people are trained to manage complex logistics challenges with precision.

Service Ahead of Sales.

WHY CHOOSE PTC

50+ Years of Legacy

A logistics partner trusted by Indian industries since 1968.

PAN-India Coverage

50+ branches covering 22+ states with strong presence in the entire country.

GPS-Enabled Tracking

Every truck is monitored in real time for safety, speed and route accuracy.

High-Value & Bulk Cargo Specialist

Automobiles, Steel, heavy material, industrial goods and high-value shipments handled with care.

IBA & ISO Certified

Compliance, quality and safe transportation are part of every delivery.

Project & ODC Expertise

Specialists in moving large, long and heavy machinery across India.

Service Ahead of Sales.

OUR SERVICES

PTC offers reliable, structured logistics services designed to support India's industrial supply chains.

All India Moving

Move goods anywhere in India with our trusted transport company. We handle both full truck load and part truck load services for your business or personal needs.

Storage Units

We provide secure storage units with flexible rental options. Your goods are always protected and easy to access when you need them.

Long Distance Moving

Planning a move to a far location? Our long-distance moving service ensures your items reach their new destination safely, whether it's across states or cities.

Box Delivery

Our Box Delivery service uses large containers to transport multiple boxes together, ensuring safe, organized, and cost-effective shipping for businesses.

Loading/Unloading

Our expert team handles the heavy lifting for you. We offer professional loading and unloading services to keep your goods safe and damage-free.

OUR GREEN LOGISTICS APPROACH

- ✓ Adoption of LED lighting and energy-efficient HVAC systems at the corporate office
- ✓ Installation of solar panels at corporate office and warehouse facilities
- ✓ Planned transition of branch offices to renewable energy and LED systems
- ✓ Gradual adoption of electric and hybrid vehicles in fleet operations
- ✓ Use of AI-based route planning and optimisation tools to reduce fuel consumption
- ✓ Transition towards recyclable, biodegradable, and compostable packaging materials
- ✓ Development of a carbon footprint tracking and monitoring system
- ✓ Employee awareness and training programs on sustainability practices
- ✓ Collaboration with fleet partners aligned with green logistics principles

Service Ahead of Sales.

PTL & WAREHOUSING SOLUTIONS

PART TRUCK LOAD (PTL) SERVICES

Prakash Transport Corporation has launched a dedicated **Part Truck Load (PTL) Division** to support businesses that need reliable transportation for smaller consignments without booking a full truck.

PTL allows multiple shipments to be consolidated and transported efficiently through our logistics network. This enables businesses to move goods in smaller quantities while optimizing transportation costs and ensuring dependable delivery schedules.

Our PTL model supports both in-city distribution and inter-city deliveries, making it a flexible solution for modern supply chains.

Current Operations

Our **PTL operations** are currently active in **Karnataka**, with a major operational hub located in **Bangalore**.

For **Safari Industries**, **PTC** manages the movement of consignments from their warehouse to our Bangalore hub. From there, shipments are consolidated and delivered to their customers as smaller consignments across multiple delivery points, similar to a structured distribution courier model.

Network Expansion

Future expansion planned across additional regions through our existing branch network

Key Features of Our PTL Services

- Flexible shipment sizes without the need to book a full truck
- Efficient route planning for city and inter-city distribution
- Safe handling and professional loading/unloading
- Scalable logistics model for expanding distribution networks
- Reliable scheduled dispatches
- Dedicated delivery coordination

Warehousing & Logistics Services

- Warehouse management
- Inventory management
- Logistics and distribution management
- Storage and dispatch coordination
- Integrated supply chain support

WAREHOUSING & LOGISTICS SUPPORT

PTC is expanding its logistics capabilities through **warehousing** and **integrated supply chain** services.

Our owned warehouse facility at **Athgarh, Odisha** supports storage and distribution requirements for businesses operating in eastern India. This facility strengthens our ability to manage goods efficiently before dispatch and distribution.

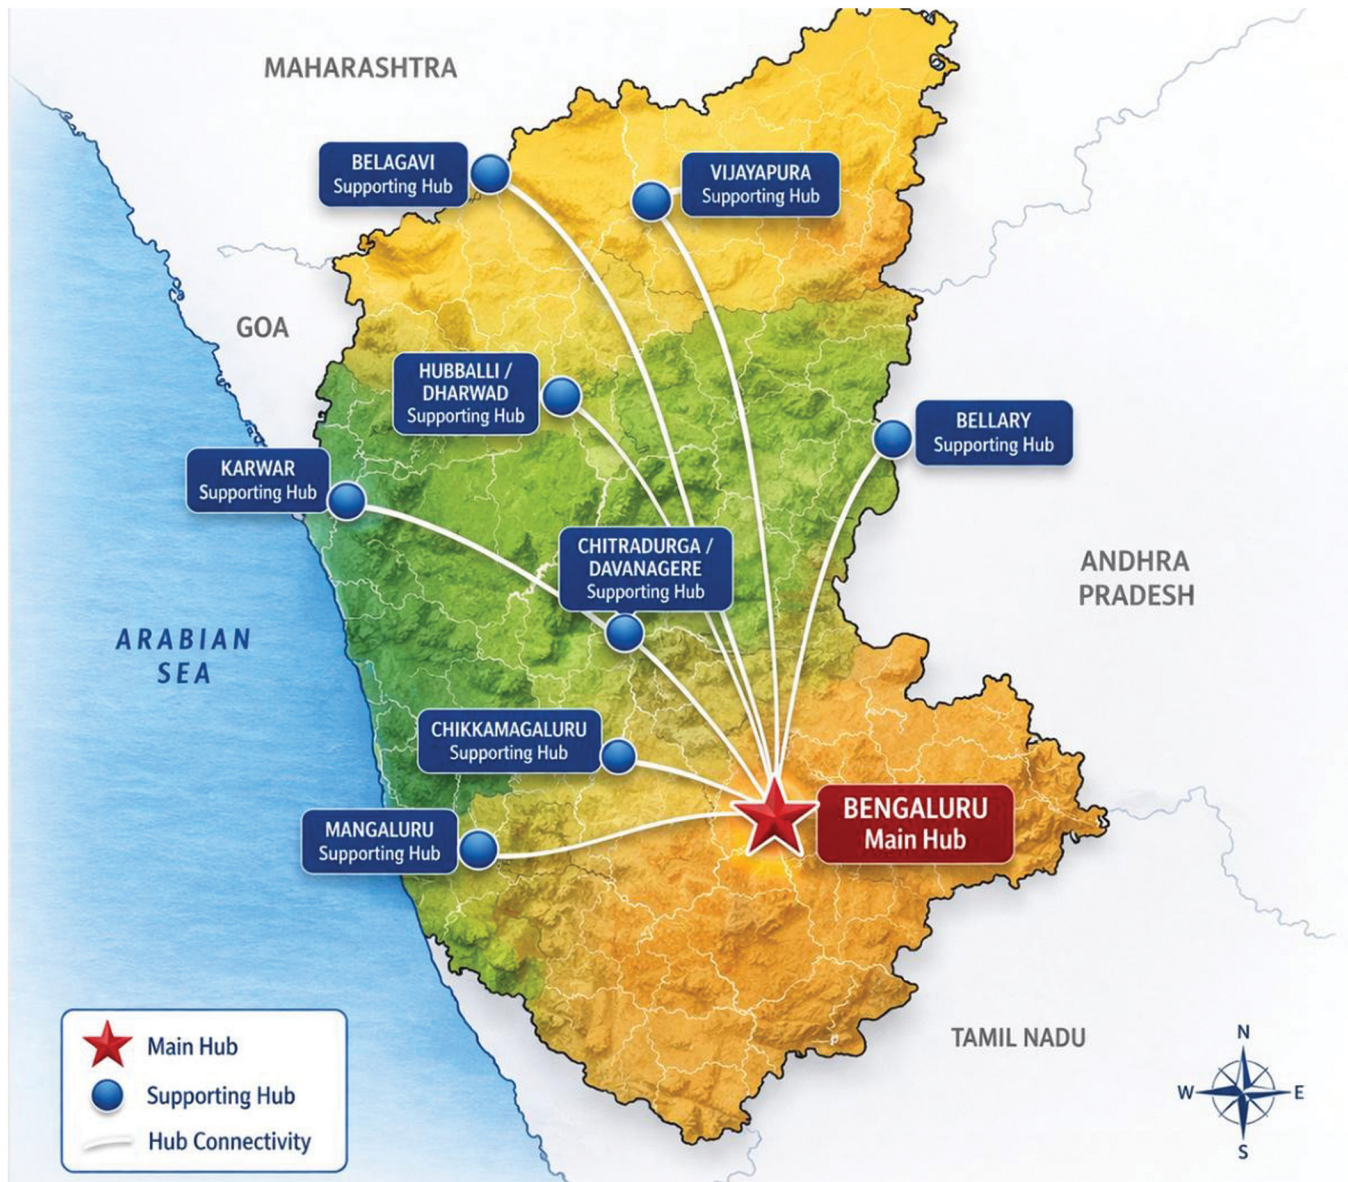

PTC is also actively exploring **Third-Party Logistics (3PL) services** across India, allowing businesses to outsource their storage, inventory, and distribution operations through a reliable logistics partner.
